<tr>
<td>I think cocktails are limited to live performances. Various ingredients are combined in the shaker and the process until the drink is poured into the glass is precisely the live performance given by the bartender.</td>
</tr>
<tr>
<td>The sound of the shaker filled with alcohol, fruit piece and ice closely resembles a drum solo and the moment that the drink is poured from the shaker into the glass, it is as if you can hear the trees of a quiet dell.</td>
</tr>
<tr>
<td>We enjoy the colors, tastes and aromas of cocktails, which are also called art in a glass but we hope you will enjoy cocktails with both your ears and your eyes.</td>
</tr>
<tr>
<td>Luckily, Usunoshiba has many bar tenders who entertain us with cheerful performances.</td>

<tr>
<td>We want you to experience the quality hospitality of bar tenders. The nights of Usunoshiba warmly welcome you with a number of different faces.</td>

<td>So, whose live performances are we going to see tonight?</td>
